Home Learning – Reading

As always, it's still important to keep reading with your child every day. Please continue with sharing stories together, talking about different books and asking them questions about books they've read. Even reading different materials, can you read the outside of a cereal box with your child? Can they read the milk label? Understanding the purpose of reading is really important for children.

To support your child with their reading, it is vital that they understand how to decode words. The process of this is with phonics. Please access some of these games with your child to help them with this:

Phonics Play

www.phonicsplay.co.uk

Phonics Bloom
